

Vin de Magdalene  
*Sacramental grade Merlot*

*"Christ, it's good!"*

PAPAL WARNING: Consumption of this wine will result in excommunication and burning at the stake.

Merlot (which is French for "holy grail") is the perfect blending of the male grape with the female grape to produce the quintessential androgynous ideal.

Best served at room temperature, unless of course you live in Arizona (and even though it's a dry heat, drinking 102° wine isn't always a great idea and it often leads to regurgitation).

"This wine is better than that stuff at Cana."

—J. Christ
